Room Changes:

List the location of all areas where portions of the experiment will be performed. If animals are to be housed in the Vivarium list location as "SIUC Vivarium Room _____".

Protocol Changes:

This form can be used only for simple modifications of the experimental protocol such as disinfectant changes, use of same agent in a different form, or changes in vector or host organisms that do not alter classification of the experiment or safety of the protocol. Major protocol adjustments such as changes/additions to chemical or biological agents, changes in animal model, or use of vector or host organisms that change classification of the experiment require completion of a new MUA.
